

Curriculum Vitae

Matias Saarinen

I am an energy technology engineer. My areas of expertise are project management, planning and renewable energy. I have acted as a tutor, scout leader and 4H leader. My hobbies include cooking, houseplants, history and video editing.

My webpage (in Finnish): <https://www.portfolio.inssimat.fi>

Brief work history

9/2025-2/2026, Barona/Martela, Mover

After my studies, I worked as a mover in corporate relocations. My social skills in customer contacts and good physical fitness in moving goods were useful in the job.

5/2021-1/2023, Solnet Finland Oy, Solar panel installer

During my studies, I worked on solar panel installations on large fields of over 100kWp. I worked on several construction sites in different parts of Finland. I acted as a trusted workforce on the construction sites, and I was entrusted with supervision of the construction site when necessary on the occasion the actual foreman was unable to.

6/2011-9/2020, Posti/LSTJ, Morning delivery person/Postman/Rush hour assistant

My first employment contracts were annual summer jobs for Posti or its competitor LSTJ. At work, I learned social skills, manual dexterity, and vehicle control.
